ABOUT US

Fixers Engineering is a renowned and dynamic engineering service company based in Kuwait. Since our establishment in 2015, we have emerged as a trusted and leading provider of comprehensive maintenance services, in both private and government sectors.

Our commitment is to deliver diverse and high-quality maintenance solutions that ensure the longevity, efficiency and optimal performance of our clients' infrastructure. With a team of highly skilled professionals, including experienced technicians, engineers and project managers, we possess the expertise and knowledge required to handle a wide range of electromechanical and civil works projects.

Our range of services includes Civil Construction, Operation and Maintenance, in addition to Facility Management. We undertake projects of varying sizes and complexities, delivering exceptional results with meticulous attention to detail.

Customer satisfaction is our unwavering focus in Fixers Engineering as we understand that our clients' success depends on the seamless and uninterrupted operation of their infrastructure. Therefore, we prioritize building strong relationships with our clients, ensuring their needs and objectives are met with precision and reliability. By collaborating closely with our clients, we develop customized solutions that not only address their immediate maintenance requirements but also align with their long-term goals.

CHAIRMAN SPEECH

Dear valued Clients and Partners,

I am delighted to be here today as the Chairman of Fixers Engineering. I would like to express my utmost gratitude for your trust in our company. We are committed to delivering innovative and advanced engineering solutions, and we eagerly anticipate enhancing our relationships and achieving new milestones together.

Thank you all for your support and cooperation, and we eagerly look forward to a promising future filled with mutual success.

OUR QUALITY CERTIFICATIONS

Fixers Engineering holds two esteemed quality certifications: ISO 9001:2015 and ISO 45001:2018.

The ISO 9001:2015 certification demonstrates our dedication to implementing and maintaining a robust quality management system. It assures our clients that we consistently deliver services that meet their requirements while continually improving our processes.

Our ISO 45001:2018 certification validates our commitment to occupational health and safety, ensuring a safe and secure working environment for our employees and stakeholders.

These certifications reflect our unwavering commitment to quality, safety and continuous improvement, instilling confidence in our clients that we adhere to international standards and strive for excellence in every aspect of our operations.

OUR ACHIEVEMENTS

Fixers Engineering has achieved significant milestones, solidifying our reputation as a reliable and accomplished service provider.

Our fourth-category classification with the Central Agency for Public Tenders allows us to participate in public procurement projects. Furthermore, we are recognized and accredited by prestigious entities, including Kuwait Petroleum Corporation (KPC), Kuwait National Petroleum Company (KNPC) and the Central Agency for Information Technology (CAIT).

OUR VISION

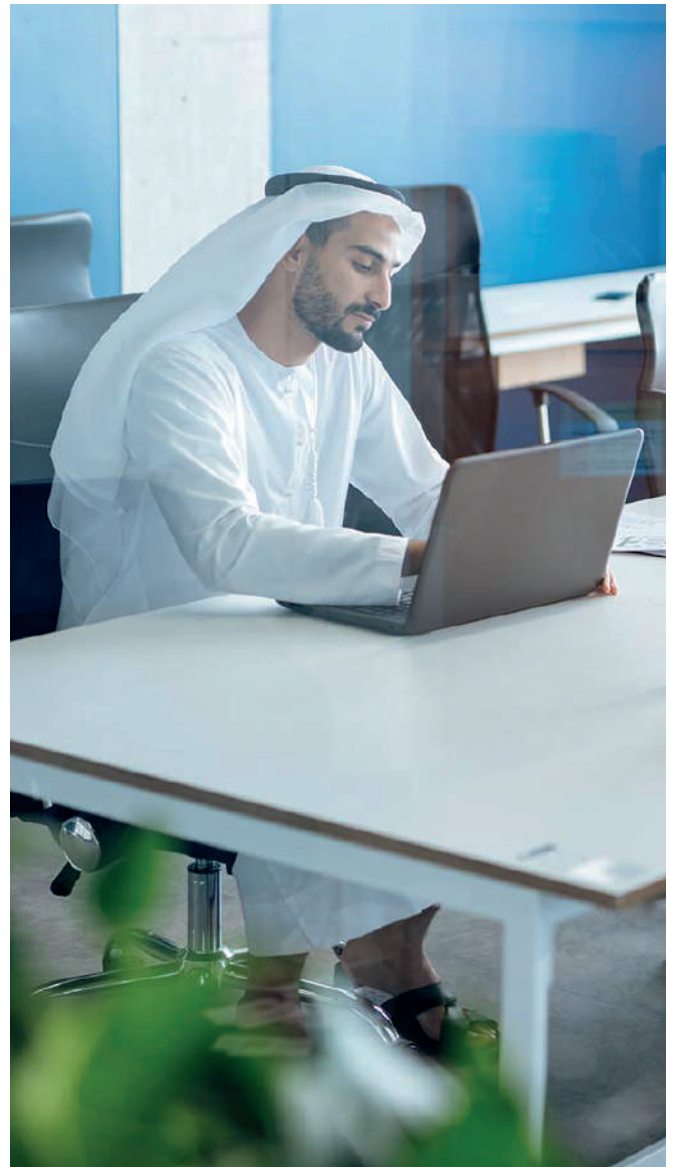

To be the foremost provider of engineering services, renowned for excellence, innovation and customer satisfaction in both local and regional markets

OUR MISSION

Our mission is to deliver diverse and high-quality maintenance services to our clients in private and government sectors. We strive to exceed customer expectations by providing reliable solutions, leveraging cutting-edge technology and fostering long-term partnerships.

OUR VALUES

Our commitment to excellence is demonstrated through our core values of customer centricity, human capital, integrity and transparency, quality and reliability, safety and innovation, as well as fostering long-term relationships. These values permeate every aspect of our operations, ensuring that our clients receive top-notch services and exceptional customer experiences.

FUTURE PERSPECTIVES

Fixers Engineering has a clear vision to become the foremost engineering services provider in the local and regional markets. To this purpose, we constantly strive for excellence, continuously improving our services and embracing innovation. We are committed to building long-term partnerships, based on trust, reliability and exceptional service, and to being the preferred choice for maintenance solutions.

OUR GOAL

At Fixers Engineering, our overarching goals are to drive excellence, foster innovation, and exceed client expectations. We aim to achieve these goals by prioritizing customer satisfaction, delivering high-quality solutions and continuously enhancing our operational efficiency. By nurturing strong client relationships, embracing cutting-edge technologies and promoting a culture of continuous improvement, we strive to position ourselves as a trusted leader in the industry, delivering exceptional results and driving the success of our clients' projects.

CIVIL CONSTRUCTION

Our experienced team of engineers and skilled workers ensure the successful implementation of projects to the highest industry standards.

OPERATION & MAINTENANCE

We conduct regular inspections, preventive maintenance, and necessary repairs to extend the lifespan of equipment, enhance energy efficiency and to reduce operational costs.

FACILITY MANAGEMENT

We focus on optimizing resources, implementing energy-saving measures, and incorporating sustainable practices to reduce environmental footprint.

OUR SERVICES

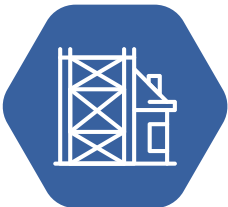

“Committed to Quality”

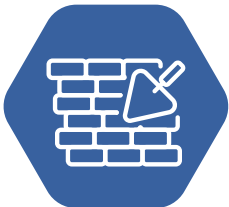

OUR SERVICES

1- CIVIL CONSTRUCTION

Our Civil Construction service encompasses a wide range of expert solutions tailored to meet the needs of our clients. With a strong emphasis on quality and attention to detail, we specialize in various aspects of civil construction, including frame structure works, brick and mason works, road and bridge construction, hospitals, culvert and road works. Whether it's constructing a new building, renovating an existing structure or developing infrastructure projects, our experienced team of engineers and skilled workers ensure the successful implementation of projects to the highest industry standards. We leverage our expertise, innovative techniques, and advanced equipment to deliver reliable, cost-effective, and sustainable civil construction solutions that meet and exceed client expectations.

OUR SERVICES

2- OPERATION & MAINTENANCE

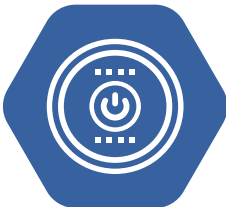

Our Operation & Maintenance service is designed to ensure smooth and efficient operation of electromechanical systems, building automation systems and civil and interior works. We provide comprehensive maintenance solutions to keep facilities running optimally and minimize downtime. Our skilled technicians and engineers conduct regular inspections, preventive maintenance, and necessary repairs to extend the lifespan of equipment, enhance energy efficiency and to reduce operational costs. Whether it's HVAC systems, electrical systems, plumbing or general building maintenance, we are committed to deliver top-quality services that meet the unique needs of our clients. Focusing on reliability, safety, and customer satisfaction, our Operation & Maintenance service provides our clients with peace of mind and long-term value.

OUR SERVICES

3- FACILITY MANAGEMENT

Our Facility Management service is dedicated to managing risks to facilities and personnel, impacting operational efficiencies, and mitigating environmental impact. We provide comprehensive solutions to ensure the effective and sustainable management of our clients' facilities. Our expert team oversees all aspects of facility operations, including maintenance, security, cleaning, and space utilization. We focus on optimizing resources, implementing energy-saving measures, and incorporating sustainable practices to reduce environmental footprint. With a customer-centric approach, we tailor our facility management services to meet the specific needs of our clients, ensuring a safe, well-maintained, and efficient working environment. From small businesses to large organizations, we strive to enhance operational performance, maximize asset value, and deliver a seamless facility management experience.

WHY CHOOSE FIXERS?

Here are five key points highlighting why you should choose Fixers Engineering:

- **Comprehensive Expertise:** Fixers Engineering offers a wide range of services, including mechanical, electrical and plumbing solutions, civil construction, and facility management. By choosing us, you gain access to our diverse expertise, allowing us to handle all your engineering needs efficiently and effectively.
- **Proven Track Record:** With several years of experience and a successful track record, Fixers Engineering has established a solid reputation in the industry. We have completed numerous projects across various sectors, demonstrating our ability to deliver high-quality results on time and within budget.
- **Customer-Centric Approach:** At Fixers Engineering, customer satisfaction is at the heart of everything we do. We prioritize your needs and goals and ensure clear communication, proactive problem-solving and a collaborative approach. We are committed to building long-term relationships and exceeding your expectations.
- **Commitment to Quality and Safety:** We are dedicated to deliver highest quality services, while maintaining the utmost safety standards. Our experienced professionals, rigorous quality control measures and adherence to international standards ensure that your projects are completed to the highest standards of excellence, with a strong focus on safety.
- **Innovation and Efficiency:** Fixers Engineering embraces innovation and utilizes advanced technologies to enhance project efficiency, optimize resource utilization and deliver cost-effective solutions. We keep abreast of industry trends and leverage the latest tools and techniques to drive innovation and deliver superior results.
